ST. BENEDICT'S COLLEGE.

THIS COLLEGE, founded in the year 1858, is conducted by the Benedictine Fathers. It is incorporated under the laws of the State of Kansas, and empowered to confer academic honors.

The object of this institution is to impart to young men a thorough moral and mental training, so as to fit them for any position in life.

The College is situated in the north-eastern part of Atchison, on a thirty-acre plat of ground, which extends to the river bank. The site is elevated and commands an excellent view of the Missouri River and surroundings; the play grounds, large, well shaded, and supplied with gymnastic apparatus, are really a delightful place to spend the hours of recreation. The building has been put up with an eye to healthfulness, comfort, and safety.

There are forty apartments in the college, utilized as study-rooms, class-rooms, dining-rooms, and bathrooms, besides a large society hall on the ground floor, and four large dormitories, all roomy, well ventilated by airflues, and lighted with electricity; the underground drainage system is very complete, and the margin of danger from infected water, defective drainage, close and unwholesome rooms, and especially from fire, is

either entirely removed or reduced to a minimum. There is a stand pipe, with hose and connections in each story, besides a fire plug outside of the building; but, what is better, there are no defective flues built by contract, and none are needed, as the college buildings are heated by steam on the low pressure system, and the chimneys for the kitchen and the boiler-room are veritable factory stacks. In addition to this, the College is provided with a large stairway of brick and stone, which can neither burn nor melt; it extends from the footing-course to the comb of the roof, and communicates with each floor by double-acting fire-proof folding doors, and with the outside by a vaulted passage. It will be seen from all this that little has been left undone to ensure the comfort and well-being of the students. The kitchen is in charge of a community of Sisters, which is saying for this department all that is necessary.

The College has two distinct libraries, one of which is for the use of the students. The works of the students' library cover nearly every department of literature. The current news and literature of the day are supplied by different papers and magazines. This library contains two thousand four hundred and eighty-five volumes, and additions to it are made every year, both by purchase and donations. The College library proper is for the special use of professors; at present it contains eleven thousand and ninety-four bound volumes and one thousand four hundred and seventy-one pamphlets.

The College also possesses quite a museum of specimens in Natural History. Aside from the importance that researches in Natural History have assumed by the light they have thrown on the past history of our earth and its inhabitants, of its minerals, animals, and plants, Natural History is sufficiently interesting in itself to deserve at least the leisure moments at our disposal. There is nothing so little or so apparently trivial in God's grand world as not to be made to teach us a useful lesson

and at the same time become an endless source of pure, interesting, and wholesome recreation.

The Herbarium contains about two thousand specimens, mounted and classified. Ornithology is represented by a large case of mounted birds, in which every order has one or more specimens. The collection is particularly interesting as the specimens are all Kansas birds, some of which are rare, at least in their former haunts.

Geology and Paleontology are both fairly represented, the latter by fossils from various sections of the United States, more particularly from our own immediate surroundings. The mineralogical specimens are quite numerous. Besides a number of the rarer and more precious minerals, the museum contains fully a ton of lead, zinc, copper, silver, and other useful ores.

Ethnology, Herpetology, Entomology, and other branches also come in for a little corner in the museum. In short, there is hardly a department, the study of which may not be fairly entered upon with what material has found its way into the museum, and new specimens are being added almost daily.

GENERAL REMARKS.

COLLEGIATE DEPARTMENT.

STUDENTS are divided into three departments; the Ecclesiastical, the Commercial, and the Minim.

Only such boys are admitted to the ECCLESIASTICAL department as intend to study for the priesthood. They have special instructions and exercises adapted to the vocation to which they aspire. Students of this department must make it a point to execute with precision, gravity, and decorum, whatever pertains to divine service. To this end they must practice the Gregorian Chant, attend the instructions in ceremonies and take part in the various ecclesiastical solemnities of the year. In the Ecclesiastical department are the students of the Diocesan Preparatory Seminary. Father Director is ex officio the Prefect.

The students of the ECCLESIASTICAL and the COMMERCIAL COURSE are divided according to age into a Junior and a Senior department, each of which has its own study hall.

The MINIM department is for boys from twelve to fourteen years of age.

THE ACADEMIC YEAR.

The Academic year consists of two sessions of five months each. The first session begins on the second Tuesday of September, and ends on the last day of January; the second begins on the first of February, and ends on the twenty-third of June.

Experience teaches that the students who are promptly on hand at the beginning of the year, show the most uniform and satisfactory progress during the course. It is therefore desirable that all students begin their studies at the start; still admission will be given at any time of the first session. Pupils upon arriving will be examined and assigned to the classes for which their previous studies have qualified them; but in no case will a student be received for the First Latin Class after September 30, unless he is well able to advance with that class.

An examination of one week's duration is held before Christmas, and another at the end of the school year. Reports are sent to the parents or guardians four times during the year, to inform them of the conduct and improvement of their sons or wards.

It is intended by this foundation to offer some apt, diligent, and deserving pupil an opportunity of finishing his Classical Course gratis. The privilege of the scholarship is open to students from all quarters, and will be awarded to the one that shall score the highest number of points in a competitive examination. All that desire to avail themselves of this opportunity, will please take notice of the following points:

ALT STUDIO.

THE ABBEY STUDENT.

"THE ABBEY STUDENT" is the title of a 36-page magazine, edited and published six times a year, by the students of the College. The paper is exclusively a students' paper, as contributions from other sources are never accepted. The high standard that the students reach in literary work can be seen from a glance at its pages. Although only in the fifth year of its existence, the magazine has already attained for itself the reputation of a first class College paper, thus giving unmistakable evidence that the English Course at St. Benedict's is second to none in the country.

Besides having as its special object the literary advancement of its pupils, it aims likewise at furnishing points of interest to friends and old students outside of the institution. Old students especially will find its personal and local columns bright and breezy. Under the heading of personals, the whereabouts and doings of old students are faithfully chronicled from month to month. The Local columns are a reflex of the daily life at College and the changes that occur.

All that have completed a College course, are expected to write intelligently on general topics. In the College paper, young writers will find an excellent field for the cultivation of their talents. Subscription fee One Dollar a year in Advance.

MT. ST. SCHOLASTICA'S ACADEMY

ATCHISON. KANSAS.

This Academy is delightfully situated in the suburbs of Atchison, and two miles south of ST. BENEDICT'S COLLEGE, on a beautiful elevation commanding an extensive view of the city and surrounding country.

The property includes twenty-eight acres of wood and lawn, thus affording pleasant and spacious recreation grounds for the pupils.

The course of instruction embraces every useful and ornamental branch of education suitable for young ladies. The scholastic year consists of two sessions, each comprising a period of five months. The first session commences the first Tuesday of September, and ends January 31; the second begins the 1st of February and terminates the last week in June.

Payments are to be made per session of five months in advance. Those not complying with this rule and deferring payment for two months from commencement of session, will be charged ten per cent. Pupils are admitted at any time, but not for a shorter period than one session. No deduction is made for a pupil withdrawing before the expiration of the session, except in case of sickness or expulsion.

Difference of religion is no obstacle to admission, provided the young ladies are prepared to conform with the general regulations of the Academy. Semi-annual bulletins are transmitted to parents or guardians, informing them of the conduct, proficiency and health of their children or wards. The pupils are not allowed to go out with friends or even with relations, except by order of parents or guardians. Visits to pupils can only be made by parents or by such others as are formally authorized by them. All letters written or received by the young ladies are subject to inspection.
